KAPIL KUMAR

SOFTWARE DEVELOPER | AI/ML ENGINEERING

Vadodara, India | +91 6350050794 | kapilkumar.ai.dev@gmail.com
github.com/sniperlordhumai-debug | linkedin.com/in/kapil-kumar-931330375

PROFESSIONAL SUMMARY

Computer Science (AI/ML) undergraduate and software developer building full-stack TypeScript and Python applications. Hands-on with Next.js, React, Fastify, PostgreSQL, Prisma and REST APIs through production-oriented projects. Seeking software engineering, full-stack or AI/ML internship and entry-level opportunities.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, C++, Java, HTML, CSS
Full Stack: React, Next.js, Node.js, Fastify, REST APIs, Tailwind CSS
Backend / Data: PostgreSQL, Prisma ORM, Authentication, Authorization, API Security, Dash
AI / ML: Machine Learning, Generative AI, AI Agents, Federated Learning, Data Analytics, Speech Processing
Foundations / Tools: OOP, Data Structures & Algorithms, Testing, Git, GitHub, AWS

PROJECTS

Reels Hub Pro | Next.js, TypeScript, Fastify, Prisma, PostgreSQL
github.com/sniperlordhumai-debug/reel

- Engineered a full-stack short-form platform with independent user and admin applications plus a REST API that can be deployed and scaled separately.
- Implemented role-based access, content feeds, an append-only coin ledger, idempotent reward and payout workflows, and device/fraud checks.
- Built 62 automated tests covering money, payout and feed flows and documented Render/Vercel deployment procedures.

Kapil OS — Developer Portfolio | Next.js 14, React, TypeScript, Tailwind CSS, Framer Motion
github.com/sniperlordhumai-debug/kapil-os

- Built a responsive, data-driven portfolio with interactive project, skill, certificate, timeline, GitHub and resume modules.
- Developed server-side routes for a retrieval assistant, contact validation and rate limiting, and cached GitHub data; added accessibility and reduced-motion support.

Jarvis Personal Assistant | Python, AI, Speech Processing, Desktop Automation

- Built a voice-to-action loop that processes speech, interprets commands, performs desktop actions and returns spoken feedback.

EDUCATION

Parul University, Vadodara | Expected 2029
B.Tech — Computer Science & Engineering (Artificial Intelligence & Machine Learning)

VIRTUAL EXPERIENCE

- Completed seven Forage job simulations in software engineering, solutions architecture, GenAI, cybersecurity, data analytics and strategy consulting (2025–2026).
- Practiced REST API controllers, Kafka/H2 integration, cloud architecture, Dash application testing, exploratory data analysis and risk profiling.

SELECTED CERTIFICATIONS

- Google AI Fundamentals; Meta Introduction to Front-End Development; Microsoft Introduction to Computers (2026)
- NVIDIA AI on Jetson Nano; AWS Generative AI and Cloud Computing; Simplilearn AI Agents (2025)

ACHIEVEMENTS & ACTIVITIES

- Hack2026 AI Skill Event, Parul University — participated in a 3.5-hour competitive technical build (March 2026).
- Earned 16 credentials across AI/ML, software engineering, cloud, cybersecurity, data analytics, web development and leadership.
